Instant Lettering is an incredibly simple method of lettering — anyone can do it. Self-adhesive letters, printed on a special plastic sheet, are just rubbed down into position on any artwork or drawing, wood, paper, glass, acetate, even crackle finished metal and rough textured papers. The finished result is superb — no background film to letters, clean definition, sharp color — reproduction quality. Letter sizes range from 8 point to 1½" display letters in a wide selection of type faces. 10" x 15" sheet only $1.50.

Send for sample and complete type chart.
